

Reflective Log – Week 1

Please fill in this form to describe your experience of completing the assessments in this unit. This information will help the teaching and educational design teams to better understand what students are doing as they complete the assessments in this unit and will be used to inform changes to the design of the unit.

Please describe what you did this week to understand, prepare for and/or complete your assessments in this unit.

Include enough detail so that it is clear which assessment (or assessments) you are referring to.

1. What did you 'do' this week in relation to the assessments?

(e.g. read the unit outline, start writing some ideas, looking for examples/papers/resources in the library, reading the related unit resources, have not started doing anything yet etc)

2. What did you 'say' or discuss this week in relation to the assessments?

(e.g. asked classmates about my/their ideas, spoke with the tutor to clarify something, discussed the assessment with Generative AI etc)

3. How did you 'relate' to others this week in relation to the assessments?

(e.g. I interacted, formed relationships, had misunderstanding... with my classmates, tutors, unit coordinator)

OPTIONAL questions:

4. What did you find most challenging this week in relation to the assessments?

5. What challenges did you encounter this week regarding the assessments? Did you manage to address them? If yes, how did you address them? If no, what would help you to address them?

6. What resources (e.g., texts, lectures, tutorials) did you find most helpful this week for your assessments? Did you seek any additional support or guidance?

7. How did you manage your time this week in preparing for the assessments?

8. Describe any emotions or feelings you experienced this week concerning the assessments.

9. Reflect on your learning this week in relation to the assessments. What new understanding or skills did you acquire? If you haven't learned anything new, what details on assessment would benefit from now?
